Dear Sir:

In April I inspected the Swedlund #1 SWNW4-9N-53W in Logan County. At that time your retaining pit had oil on it and your skim pit was not covered. Rule 325 requires that pits be kept free of oil and that accumulations be removed within 10 days. A condition of the approval of this pit permit required that the skim pit be covered. Presence of waterfowl at or near this site makes overhead cover a must. Your production tanks have no berms in place as required by Rule 604.a(4).

You are hereby directed to correct these deficiencies within 30 days. No other response is necessary, however if you have questions or comments about this letter you may reach me at the above address or phone number.

Sincerely,

Robert J. Van Sickle  
Field Engineer
