COLO. OIL &amp; GAS CONS. COMM.

October 20, 1969

Oil and Gas Commission  
State Capitol Annex  
Denver, Colorado

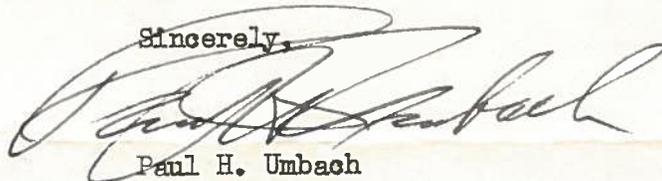

Dear Sirs:

The Whitacre No. 1 and No. 2 wells in Logan County, Colorado are to be abandoned. The pipe on No. 2 well will be pulled as soon as weather permits.

Mr. Lee Swedlund will be in charge of the operation and will see that the wells are abandoned in accordance with your instructions and regulations. I believe Mr. Swedlund has been approved by the commission as an operator and is familiar with the necessary procedures.

The delay in plugging these wells is explained by the fact that Mr. Nunn of Virginalina, Virginia purchased the wells but has since had a heart attack and is unable to operate at this time. I will not be able to be on the well sights at the time of the plugging due to other assignments at this time but will assume the obligation of carrying out any order of the commission.

Sincerely,

Paul H. Umbach
