Facility ID:	476918	Type:	SPILL OR	API Number:	-	Status:	CL	Insp. Status:	EI

--

Environmental**Spills/Releases:**

Type of Spill: _____ Estimated Spill Volume: _____

Comment: During inspection Operator used a Geoprobe to determine the extent of impacted soils in the spill area. Based on Geoprobe results it appears that impacts are confined to an area near the pipeline release; impacts were not observed in the hole placed on the opposite side of the canal. One boring hole nearest the pipeline release point was converted into a temporary monitoring well and a water sample was taken.

Corrective Action: Submit a Supplemental Form 27 with the results of the site investigation, including all analytical data from samples collected and a site map showing the location of boring holes.
