Date of work October 25, 1978

Well was spudded on October 21, 1978. After setting surface casing well was drilled to total depth of 5081' and electric logs run. Since no significant shows of oil and/or gas were encountered, well was plugged and abandoned as follows:

- 15 sacks cement plug from 115'-145'.
- 10 sacks cement plug from surface to 30'.
- Hole was filled with heavy mud.
