General Comment:

This is a reclamation inspection of the DONNINGTON #41-9 well site which was plugged and abandoned on 6/7/2016.
The location is not in compliance with the Final Reclamation requirements.
Final Reclamation was not completed within 12 months of abandonment.
See attached photos and additional details within this report.

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment:

The access road has not been recontoured and reclaimed. There are areas of erosion along the road and BMPs are not maintained. The location has been recontoured and reclaimed. The vegetation has not fully established and there are areas of erosion. Additional seeding and repair of erosion will need to be performed. BMP's must be implemented in accordance with good engineering practice and must be maintained until final reclamation is achieved. The corrective action date is set for when final reclamation was required to be completed. Corrective action needs to be performed immediately to obtain compliance.

Corrective Action:

Comply with 1004 Rules.

Date **06/07/2017**

Comment

User

Date

There is a large berm along the top portion of the location.
Large berms and terracing do not match the contours of the terrain.
