Photo 1. View of the project area from the southern edge facing center. Revegetation is progressing with intermediate wheatgrass, crested wheatgrass, sand dropseed, smooth brome, and western wheatgrass. As well as scattered volunteers such as ponderosa pine seedlings and rocky mountain penstemon.

Photo 2. View of the central project area from the southern project area facing westward.

Photo 3. View of the southwestern project area from the southern project area facing westward.

Photos 4-6. View of musk thistles within the project area. Numerous seedheads present, as well as rosettes. Approximately 300 individuals observed.

Photo 7. View of reference area vegetation comprised of ponderosa pine woodland with gambel oak, western wheatgrass, prairie junegrass, and Oregon grape in the understory.
