General Comment:**COGCC Inspection Report Summary**

On Thursday 10/29/20 at approximately 1030, I, Inspector Scott Ramsey, conducted a routine inspection at Caerus N34, at Location # 334661 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. Limited storm water inspection due to snow cover.

During this inspection the following possible compliance issues were observed:

- Lack of tracking controls
- Sediment migration west side next to tank battery

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
