Comment: This location does not comply with Rule 1004. Operator has failed to remove all debris, failed to manage weeds (Russian thistle and Kochia), and has failed to perform final reclamation activities. Refer to the attached inspection photos.

It appears the last well that was serviced by this tank battery was plugged 3/6/2019; therefore, all debris and final reclamation should have been completed by 6/6/2019.

Corrective Action:	<p>Comply with Rule 1004 to remove all debris, conduct weed management, and perform final reclamation activities.</p> <p>Collaborate with the landowner to determine mitigating measures that will allow reclamation work to be conducted in such a manner as to not interfere with agricultural activities or crop production.</p> <p>Corrective action date is being back dated to when all final reclamation activities should have been completed.</p>	Date 06/06/2019
