<p>COGCC Inspection Report Summary</p> <p>On Thursday November 5 2020 at approximately 1:37PM, I, Inspector Randy Silver, conducted an on-site follow up inspection per Doc 693501297 at a KP Kauffman site Cleveland #7, at API# 05-123-09179 in Weld County Colorado.</p> <p>While there, I observed a PR well site.</p> <p>During this inspection the following possible compliance issues were observed:</p> <p>Debris: rule 603 f See photos 1,2</p> <p>Unused equipment: Rule 603 f See photos 1,2</p> <p>Weather conditions: Clear and location is dry</p> <p>At time of inspection It appears KPK has not removed or installed PU on location.</p> <p>After an internal review of recent inspections at KPK facilities, COGCC Staff has determined that KPK has repeatedly and consistently failed to comply with certain COGCC rules (categorized in those inspection reports as violations related to "Signs/Marker," "Emergency Contact Number," and/or "Good Housekeeping"). In light of this apparent pattern of violations, violation(s) identified in this inspection report under those categories are being entered for notification and documentation only and are not intended to provide KPK the potential opportunity to resolve the alleged violation(s) without the imposition of penalty, pursuant to Rule 522.c. Therefore, in this inspection report, COGCC Staff has documented violation(s) and identified relevant corrective action(s) required to return to compliance, and pursuant to Rule 522.c., retains discretion to seek penalties for any violation documented in this inspection report.</p> <p>This inspection is due to a complaint filed with the COGCC in regards to Environmental concerns form 18 200448051.</p> <p>A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.</p> <p>This is a summary of inspection report.</p>	silverr	11/05/2020
