General Comment:

On 11/2/2020, Reclamation Specialist Trujillo conducted an interim reclamation and stormwater inspection on Berry Petroleum's Chevron I31 596 location in Garfield County, Colorado.

This inspection is a followup to #696201526 and #696201775 to document compliance with the following corrective action: 1003.f: Noxious weed management.

This inspection is also in response to Resolution #402510002 stating the corrective action has been completed.

It was observed in this inspection that the Location remains out of compliance with 1003 Rules and corrective actions.

Due to the significant nature, extent, or duration of this alleged rule violation, Location is being referred for enforcement and a corrective action date will not be applied.

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment [See "COGCC Comments" for comments regarding Noxious Weed Management.](#)

Corrective Action

Due to seed dispersal being allowed and the onset of winter conditions resulting in plant dormancy, any weed management activities conducted will likely be insufficient until the 2021 growing season.

Date _____

Therefore, no corrective action date is being provided in this inspection; this Location will remain out of compliance with Rule 1003.f until a followup inspection is conducted documenting that sufficient weed management activities have been performed to prevent the establishment and spread of noxious weeds:

Comply with Rule 1003.f. Ongoing noxious weed management/monitoring is required until Location receives a passing final reclamation inspection.

Comment	User	Date
<p>NOXIOUS WEED MANAGEMENT COMMENTS</p> <p>FIR #696201775 and #696201526 documented noxious weeds (Bull thistle, Musk thistle) established on the Location. FIR #696201775 also documented wind actively dispersing noxious weed seed onto other areas of the Location, as well as areas off-location (See doc. #696201776).</p> <p>On 10/13/2020, Operator submitted Resolution #402510002 "CA Complete", stating "Cut weeds removed from location. Weed management program will proceed in spring of 2021".</p> <p>It was observed in this inspection that noxious weeds remain on the interim areas, and that seeds appear to have finished dispersing as the plant's seed-heads are now bare; Unable to find evidence that Operator removed weeds as indicated within the resolution, or conducted sufficient weed management activities to prevent the establishment and further spread of noxious weeds on, and from the Location, pursuant to Rule 1003.f.</p>	trujilloam	11/05/2020
