COMMENTS:

During a field inspection with the COGCC, found P&A marker broke off and unable to see if the well had been plugged correctly. Action taken : put in 811 call on well location, waited till 811 had cleared, notified Rick Moran with COGCC, pot holed well; found well had been plugged correctly. Craig Burger COGCC confirmed we were good with cutting off casing (below 3-4' below surface), topped off with cement. Installed welded on Beaded information plate as per COGCC. Back filled hole, location will be reclaimed next spring.
