RE: COGCC Rule 603.a.(2): Property Line Exception Location Request
Rush 4-65 29-30 1AH Pad: SWNW Sec 28, T4S-R65W
Arapahoe County, Co

Dear Director Murphy,

Crestone is proposing 4 new wells for drilling on the Rush 4-65 29-30 1AH pad (Loc id 471001). COGCC Rule 603.a.(2) states that a well shall be located not less than 150 feet from a surface property line. The surface locations of these proposed wells shall be less than one hundred fifty (150) feet from a surface property line and are thus being permitted as exception locations. The table below shows which wells are within 150 feet of the property line:

WELL NAME	DOC #	SHL FOOTAGE	DISTANCE
Cottonwood Creek 4-65 28-27 1AH	402440944	2275' FNL, 610' FWL	27'
Cottonwood Creek 4-65 28-27 1CH	402440945	2319' FNL, 588' FWL	18'
Cottonwood Creek 4-65 28-27 2AH	402440946	2364' FNL, 565' FWL	62'
Cottonwood Creek 4-65 28-27 3AH	402440947	2409' FNL, 543' FWL	107'

As referenced in Rule 603.a.(2), the Director may grant an exception if it is not feasible for the Operator to meet this minimum distance requirement and a waiver is obtained from the offset Surface Owner(s). The surface owner is the property owner on both sides of the property line and the wells are being proposed at a location agreed upon with the surface owner of both properties via a Surface Use Agreement.

As other wells were previously approved on this pad site at similar distances in January of 2020, Crestone requests the approval of the property line exception location request and Applications for Permit to Drill for these wells. If you should have any questions or require additional information, please contact me at (720) 410-8487. Thank you for your consideration of this matter.

Regards,

Meghan C Mearsha, Senior Regulatory Analyst
