**General Comment:**

[COGCC Inspection Report Summary](#)  
On Wednesday 12/3/20 at approximately 1030, I, Inspector Scott Ramsey, conducted a routine inspection at URSA Gentry E, at Location # 335547 in Garfield county Colorado.  
While there, I observed normal production operations. All meters have been calibrated on location within the past year.  
During this inspection the following possible compliance issues were observed:

- Location shows signs of lack of stabilization BMP's in some areas (rutting is present) BMP's require maintenance which in turn can lead to tracking
- Cut slope behind tank battery is eroding and needs stabilization
- No evidence of tracking control BMP's

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
