Waters of the State ☐ Residence/Occupied Structure ☐ Livestock ☐ Public Byway ☐ Surface Water Supply Area ☐

As defined in COGCC 100-Series Rules

Describe what is known about the spill/release event (what happened -- including how it was stopped, contained, and recovered):

COGCC provided notification via Field Inspection Report (Doc #699602108 & 699602115) to KPK of an observed crude oil ring inside of produced water storage pit. The observed ring on the earthen containment berms indicated that crude oil had entered into the produced water pit. At the time of the inspection, the produced water pit was empty indicating an active release was not occurring or that any fluids were available for recovery.
