Corrective Action: There are Two CAs in this section.

Date: 07/27/2020

There are two CAs in this Section.
CA#1:Control Noxious Weeds (Russian Olive).

CA#2: Per Variance COA: Establish 80% desirable vegetation cover of reference area levels, except on the access road and graveled areas of location, performing any activities indicated by 11/1/20.

Response: CA COMPLETED

Date of Completion: 09/04/2020

Operator Comment: Weeds were initially treated on 7/23/2020 and Russian Olive was removed. When the site was re-inspected, it was requested that dead weed skeletons between the access road and 331 be removed. We then manually raked and hauled them, and vegetation is established below them, and location is at 80% desirable vegetation.

COGCC Decision: Approved pending re-inspection
