COMMENTS:

On 1/19/2021, a Form 17 was complete with a beginning pressure of 68 psi and an ending pressure of 1 psi. Gas was present at the beginning of the test, but was not continuous. A gas sample was collected during the Form 17, those results will be submitted once the lab has finished their analysis. Since gas was present at the beginning of the test and the ending pressure was 1 psi, we are electing to plug this well by 7/19/2021. We will continue to monitor and blow down as necessary until the well has been plugged.
