**General Comment:**

COGCC Inspection Report Summary

On Wednesday 2/3/2021 at approximately 1200, I, Inspector Scott Ramsey, conducted a follow up inspection at Ursa Gentry C, at Location # 311695 in Garfield county Colorado.

While there, I observed normal production operations. All meters calibrated on location within a year. Some of the C/A's from previous inspection document # 700701898 have not been completed. Operator has provided documentation of their Best Management Practices for Pad Surface Stabilization.

During this inspection the following possible compliance issues were observed:

1. Tank battery signage is missing information and located at entrance
2. Location still shows signs of lack of stabilization

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
