Photo 1. View of the project area from the well pad entrance facing center.

Photo 2. View of the western project from the northwestern corner facing southward. Revegetation is progressing with mixed grasses such as sand dropseed and crested wheatgrass. Approximately 200 musk thistles observed.

Photo 3. View of the northern project from the northwestern corner facing eastward.

Photo 4. View of the reference area comprised of sagebrush shrubland with understory of grasses and forbs such as western wheatgrass, sand dropseed, and James galleta.
