**General Comment:**

On 2/8/2021, Reclamation Specialist Trujillo conducted a final reclamation and stormwater inspection at Chevron USA's Chevron Shale W11-34 location in Garfield County, Colorado.

This inspection is a followup to #696201596 to document compliance with the following corrective actions: 1002.f

This inspection is also in response to Resolution #402481193 stating "CA Completed"

It was observed in this inspection that the Location remains out of compliance with Rule 1002.f and the corrective action.

Refer to the "Stormwater" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment: Inspection #696201596 observed that stormwater and erosion control measures have not been installed in accordance with good engineering practices. Operator was required to comply with Rule 1002.f.(2)C by 8/18/2020.

It was observed in this inspection that the wattle BMPs on the Location remain improperly installed / not installed in accordance with good engineering practices. Channelized erosion has continued on southern areas of the Location; BMPs to stabilize the soils and manage runoff have not been installed per good engineering, remain missing or are insufficient/inadequate.

Corrective Action: **Install or repair required BMPs per Rule 1002.f.(2)C**

Date: 08/18/2020

**Pits:**  NO SURFACE INDICATION OF PIT
