Re: #2-19 Peroulis, NW NW 19-8N-92W, Moffat County, Colorado

Dear Mr. Lyman:

Recently we were contacted by a Mr. George Clay, representing Mr. Peroulis (the landowner of this lease) in regards to inadequate surface restoration.

Subsequently our Field Inspector conducted an on-site inspection (copy attached) indicating several problems near this wellsite.

We are very much aware that there was another well drilled very near this referenced location, and that there is a possibility Carey Resources is not responsible for the surface damages evident.

Please supply this office with whatever evidence is within your possession that the surface restoration for the referenced well was complete. If these damages are associated with your drill-site please arrange to have the damages corrected.

If there are any questions regarding this matter, please call or write.

Yours truly,

James Kenney
Sr. Professional Engineer
