1003 f. Weeds Noxious weeds? _____

Comment

Operator has initiated interim reclamation activities to reduce disturbance areas only needed for production operations. However, Operator has failed to complete interim reclamation activities (i.e., seed). Refer to the attached inspection photos.

First production date was 11/28/2019 (Form 5A Doc.# 402266518); therefore, interim reclamation should have been completed by 5/28/2020.

Corrective Action

Complete reclamation in accordance with Rule 1003. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until the location meets Rule 1003 standards.

Revegetation activities (i.e., seeding) shall be complete no later than 4/12/21 or as soon as environmental conditions will permit.

Date **04/12/2021**

Overall Interim Reclamation **Fail**

Final Reclamation/ Abandoned Location:

Date Final Reclamation Started: _____ Date Final Reclamation Completed: _____

Final Land Use: RANGELAND

Reminder: _____

Comment	User	Date
COGCC staff, Chris Binschus, contacted and communicated these field observations to an Operator representative, Eric Larsen. Operator indicated that interim reclamation was planned to be completed sometime in March 2021 and that stormwater maintenance was planned.	binschusc	02/24/2021
