General Comment:

On 3/1/2021, Reclamation Specialist Trujillo conducted an interim reclamation and stormwater inspection at Caerus Piceance's CHEVRON-66S96W /4SWWW location in Garfield County, Colorado.

The following compliance issues were observed during this inspection:
1002.f: Stormwater.

Refer to the "Reclamation" and "stormwater" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

1003 f. Weeds Noxious weeds? <u>F</u>	
Comment	Location has been reduced to areas reasonably needed for production. Interim areas appear to be progressing towards COGCC 1003 standards; desirable perennial vegetative establishment evident though undesirable weedy plant species such as cheat grass is prevalent throughout the interim areas. Evidence of heavy grazing pressure on interim areas also observed and may hinder reclamation progression. Noxious weed remnants (Musk thistle) from the 2020 growing season observed on the interim areas. Unclear if sufficient weed management activities in 2020 were performed; A followup inspection will be conducted in the growing season to determine compliance with Rule 1003.f.
