RE: Gutshall 1  
API# 05-001-06988  
Sable Farms 22-31  
API# 05-001-09074

Dear Mr. Carlson,

Great Western Operating Company needs to re-plug & abandon the above-mentioned wells. Before we can begin, the COGCC is requesting your consent to allow us to perform this re-plug & abandonment. Per your request, Great Western agrees to the following:

- Great Western agrees to cut and cap the Gutshall 1 and the Sable Farms 22-31 at a depth of 20 feet or more.
- Great Western agrees to report any evidence of historic contamination to the Colorado Oil and Gas Commission.
- Great Western agrees to re-claim the land disturbed by our operations to its previous condition.
- After reclamation, Great Western agrees to mark the location of both the Gutshall 1 and the Sable Farms 21-31 with a six-foot post, as well as make record of its GPS.

By signing below, you evidence your consent to allow us access to your property to perform the re-plug & abandonment.

Thank you,

Jeff Farquhar  
Senior Surface Landman
