**General Comment:**

On 3/9/2021, Reclamation Specialist Trujillo conducted an interim reclamation and stormwater inspection at Caerus Piceance's N. Parachute EF G29 595 location in Garfield County, Colorado.

The following compliance issues were observed during this inspection:

905.e: Oil Waste

1003.a: Interim Reclamation

Refer to the "Environmental" and "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

**Environmental****Waste Management:**

Type	Management	Condition	GPS (Lat)	(Long)
Drill Cuttings Oily		Inadequate		
Comment	<p>It was observed in this Location that Operator has stored cuttings within constructed pits on the southeastern areas of the Location; pits appear to be unlined.</p> <p>Unable to find records of a submitted Form 27 per Sundry Doc. #401108183 conditions.</p> <p>Per COGCC comments within Sundry doc. #401089087, PAH exceedances at the time categorize the cuttings on the Location as oily waste, subject to Rule 905.e</p>			
Corrective Action	Properly dispose of oily waste in accordance with Rule 905.e and contact area COGCC EPS.			Date: 03/15/2021

## Comment

Records show 6/30/2011 as the "date of 1st production", for the last well to go into production on the Location. Pursuant to Rule 1003.a, interim reclamation was required by 12/30/2011.

Operator submitted disclosure letter Doc. #401121866 on 9/30/2016 regarding interim reclamation timing. Per the "Interim Reclaim List" Doc. #401121868, the EF G29 595 Location was identified for interim reclamation in 2016.

It was observed in this inspection that the Location is out of compliance with COGCC 1003 interim reclamation requirements; open pits with cuttings observed on the southeast end of the Location. See the "Environmental" section of this report regarding cuttings management.

## Corrective Action

Comply with COGCC 1003 Rules and conduct interim reclamation; ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed. Doc. #40112186 states Location would be reclaimed in 2016, therefore a corrective action date of 12/31/2016 is being provided.

Date 12/31/2016

Overall Interim Reclamation Fail

Well Release on Active Location ☐Multi-Well Location ☐**COGCC Comments**

Comment	User	Date
Historic aerial imagery suggest cuttings have been on the Location as far back as, if not earlier than, 2013; last well to go into production dates 2011.	trujilloam	03/11/2021
Location within a sensitive area due to ground water and surface water, as well as a CPW "High Priority Habitat"
