**Reclamation - Storm Water - Pit****Storm Water:**

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment: There are signs of vehicle rutting along the access road. The road was recently graded however, grading alone is not sufficient. The road needs to be stabilized to prevent vehicle rutting and erosion. Diversion ditches directing stormwater off the road require BMP's to prevent sediment discharge. BMP's must be implemented in accordance with good engineering practice and must be maintained. This issue was also identified in the previous inspection.

Corrective Action: Install or repair required BMPs per Rule 1002.f.(2)C

Date: 05/14/2021

**Pits:** ☒ NO SURFACE INDICATION OF PIT
