Comment:

	<p>Well location, access road and associated offsite tank battery have little to no establishment of desirable plant species. Refer to the attached inspection photos.</p> <p>Reference area vegetation is comprised mostly of warm season grasses like Blue grama. Surface owner has planted other cool season and warm season species throughout his property.</p> <p>See COGCC Comments section regarding fencing.</p>	
Corrective Action:	<p>Comply with Rule 1002.a.(3) and 1004. At the request of the surface owner, PDC shall fence off the well location, access road and associated offsite tank battery and maintain fence to prevent livestock entry until passing final reclamation. PDC shall collaborate with the surface owner on fencing requirements but it will likely be similar to Noble's fence at the shared tank battery.</p> <p>PDC shall use an approved surface owner seed mix.</p> <p>PDC shall perform final reclamation activities immediately.</p> <p>This location may be referred to Enforcement and therefore no corrective action date will be issued.</p>	Date _____
Overall Final Reclamation	Fail	Well Release on Active Location <input type="checkbox"/>
	Multi-Well Location	<input type="checkbox"/>

**COGCC Comments**

Comment	User	Date
COGCC staff, Chris Binschus, contacted Operator representatives, Phillip Porter and Ray Meisner, on April 14, 2021 to discuss observations and required corrective actions.	binschusc	04/15/2021
Fencing- Operator had previously installed fencing to prevent livestock entry while final reclamation was in process. Surface owner stated that fencing was not sufficient and was not maintained to prevent livestock entry; therefore, fencing was taken down.	binschusc	04/15/2021
