OMB No. 1004-0137
Expires: January 31, 2018

SUNDRY NOTICES AND REPORTS ON WELLS

Do not use this form for proposals to drill or to re-enter an abandoned well. Use Form 3160-3 (APD) for such proposals.

5. Lease Serial No. COC-19434

6. If Indian, Allottee or Tribe Name

SUBMIT IN TRIPLICATE - Other instructions on page 2

7. If Unit of CA/Agreement, Name and/or No.

1. Type of Well

☐ Oil Well ☐ Gas Well ☒ Other

8. Well Name and No. FEDERAL 34-2

2. Name of Operator Grand Mesa Operating Company

9. API Well No. 05-077-08538-00

3a. Address 1700 N. Waterfront Pkwy, B600,
Wichita, KS 672063b. Phone No. (include area code)
(316) 265-300010. Field and Pool or Exploratory Area
BAR X4. Location of Well (Footage, Sec., T., R., M., or Survey Description)
SWNE SEC. 34-8S-104W, 6TH PM (1925' FNL & 1672' FEL)11. Country or Parish, State
MESA, COLORADO

12. CHECK THE APPROPRIATE BOX(ES) TO INDICATE NATURE OF NOTICE, REPORT OR OTHER DATA

<input checked="" type="checkbox"/> Final Abandonment Notice	<input type="checkbox"/> Casing Repair	<input type="checkbox"/> New Construction	<input type="checkbox"/> Recomplete	<input type="checkbox"/> Other
	<input type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

The well site and access road were located on Federal surface. Well was plugged in April 1983 with project reseeding conducted shortly thereafter. It was documented by BLM inspector in 1985 that it had good reclamation and the bond was released. Formal FAN sundry was never submitted and approved. Based on the attached Final Abandonment inspection conducted by BLM inspector on April 28, 2021, the reclaimed well site (Federal 34-2) and its access road have satisfactorily met the BLM's final reclamation standards.

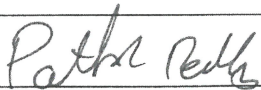

14. I hereby certify that the foregoing is true and correct. Name (Printed/Typed)

General Remarks: On Wednesday, April 28, 2021, I inspected the Federal 34-2 well site and access road. The well was plugged in 1983; inspection correspondence by BLM NRS Dave Trappett in July 1985 stated: "The site can be released as reclamation is good." The bond was released and case was closed in Sept 1988. Inspection photos (attached) from April 2021 visit show that the site (with above ground well marker) and access road have been successfully reclaimed and matches the surrounding desert landscape. Without the well marker in place, I would not have noticed that the site formerly supported a natural gas well and road. No weed or erosion issues were found. I will notify the operator to proceed with Final Abandonment Sundry to document that BLM approves of the final reclamation completed some 37 years prior. This documentation is needed to share with COGCC who desires copy of FAN sundry from BLM indicating acceptable final reclamation approval.
