Weeds present In Process Subsidence _____

1004.d. FINAL VEGETATION TRANSECT

TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment: It appears noxious weeds had been cut during previous growing season. There were a few noxious weed rosettes that will need to be controlled. There are areas where vegetation has not adequately established and could benefit from additional seeding. There is an area of erosion at the center of the location that needs to be repaired. Ongoing monitoring and management will need to be performed.
