## Description of Corrosion Protection:

Elevations uses Flexsteel for its produced water lines. The waterline is made of HDP that is wrapped in steel that is again wrapped with HDPE (high-density polyethylene), which creates a protection mechanism both internally and externally of the pipeline.

## Description of Integrity Management Program:

Program available upon request.

**Description of the construction method used for public by-ways, road crossings, sensitive wildlife habitats, sensitive areas, and natural and manmade watercourses (i.e., open trench, bored and cased, or bored only), if applicable.**

Elevation used various construction methods for all public by-ways, road crossings, sensitive wildlife habitats, sensitive areas, and natural and manmade watercourses. The I-25 segment was cased, Northwest Parkway will be cased, and Highway 7 will be cased. Local roads and floodplain segments will not be cased.
