General Comment:

This is a final reclamation inspection. Document 2592144 describes plugging the well on 12/1/2010. The following compliance issues were observed:

- Location is not reclaimed. Per COGCC rules, final reclamation should have been conducted no later than a year of plugging the well (12/1/2011)
- All equipment needs to be removed and properly abandoned. This includes any inactive flowlines or risers not abandoned that serviced the well.
- Weeds need to be controlled.
- Trash dumped on unmanaged sight needs to be removed and properly disposed of.
- Well pad and access road need to be reclaimed to COGCC reclamation standards per 1000 series reclamation rules.

Corrective action date for all corrective actions listed above: 7/1/2021

VEGETATIVE COVER _____

Comment: Unused equipment remains within the project area. Flowline markers observed. Well pad and access road are not recontoured and reclaimed. Thousands of musk thistles and Canada thistles observed within the eastern project area. Trash dumping due to unmanaged and open site is occurring within and adjacent to the project area.

Corrective Action:

Date **07/01/2021**

-All equipment needs to be removed. This includes any inactive flowlines or risers not abandoned that serviced the well.
 -Weeds need to be controlled.
 -Trash dumped on unmanaged sight needs to be removed and properly disposed of.
 -Well pad and access road need to be reclaimed to COGCC reclamation standards per 1000 series reclamation rules.
