General Comment:Accident Inspection, Watkins Multiwell pad

Inspector was contacted via email at 4 pm on 5/30/2021 by Arapahoe County LGD about a gas release at the Crestone Watkins multiwell pad. Inspector then contacted that Arapahoe County LGD, the Crestone 911 contact person in the email, and inspector's supervisor that night. Inspector was instructed by supervisor to email/forward emails to him, COGCC Director, COGCC Deputy Director Operations and COGCC Community Relations Manager. Inspector was instructed to do a field inspection on 6/1/2021 where the Crestone Lead Pumper was on location in the am and City of Aurora and Crestone Environmental people were on location. It was recounted that a private citizen had driven off Watkins Road and hit a gas line to the flare that caused Crestone's alarm to go off at 2:15 am 5/30/2021. Lead pumper for Crestone then arrived at 0830 am on 5/30/2021 and shut-in the location. Crestone Security was called by pumper to make emergency contacts. Attached are photos from this inspection. Crestone stated that Forms 19I, 22, and 44 were submitted to COGCC. Corrective Action per this inspection will be to repair mechanical conditions and tests lines prior to restart. Comment: Operator should design and implement processes to protect equipment from future incidents and contact COGCC as soon as as soon as practicable, but no more than 6 hours after a safety event. Inspector was told by Crestone that she would be added to the emergency contact list.
