General Comment:

On 5/28/2021 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Control weeds by 6/17/2021. Corrective action date is reduced as weeds are in a seeding condition at the time of the inspection and need immediate control.

See below, and attached photos for additional detail.

TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

1003 f. Weeds Noxious weeds? _____

Comment Thousands of jointed goatgrass individuals observed within the project area. Revegetation is progressing in portions of the interim reclamation area that are not infested with jointed goatgrass.

Corrective Action -Control weeds by 6/17/2021. Corrective action date is reduced as weeds are in a seeding condition at the time of the inspection and need immediate control. Operator needs to assess cover of desirable vegetation after weeds are control, as re-seeding will likely be needed.

Comment: Stormwater and erosion controls were assessed during this inspection and active erosion was not observed. These controls are assessed for whether they are functioning at the time of the inspection only. A determination as to whether or not they are adequate for the location over the duration of production is not made. Continue monitoring and managing stormwater and erosion controls to ensure compliance with stormwater regulations.
