General Comment:

On 6/8/2021, Reclamation Specialist Trujillo conducted a final reclamation and stormwater inspection at Laramie Energy's Anderson 7-5 Pad location in Mesa County, Colorado.

This inspection is to a followup to inspection #696202548 to document compliance for the following corrective actions:
Comply with COGCC 1004 Rules and 1002.f.

This inspection is also a followup to resolution #402682382 stating CAs were addressed.

It was observed in this inspection that the Location remains out of compliance with COGCC Rules and corrective actions

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment: _____

FIR #696202548 observed that final reclamation was not completed in accordance with 1004 Rules; surface equipment remains on Location; desirable vegetative germination not observed; control measures to stabilize soils missing or insufficient; wattle BMPs not maintained in proper functioning condition and is now debris and requires removal. Inspection required Operator to Comply with 1004 Rules and implement control measures to stabilize the seeded soil.

It was observed in this inspection that the Location remains out of compliance with 1004 Rules and Rule 1002.f; surface equipment has not been removed; control measures to stabilize soils per the CA missing or insufficient.

Corrective action not addressed and remains applicable.

Corrective Action:

Original corrective action and date remains applicable:

Comply with COGCC 1004 Rules and conduct reclamation on the Location including, but not limited to, removal of surface equipment and debris, compaction alleviation and revegetation activities. Ensure control measures are implemented to stabilize the seeded soil. Continue to monitor and manage Location for reclamation, stormwater and weed management until site receives a passing final inspection.
