Comment: **The well site has been reclaimed and all equipment was removed. The vegetation appears to have re-established at the abandoned well site area. There is an abandoned associated facility approximately 900' southeast of the Hume 1-20 abandoned well site. All equipment associated with the plugged and abandoned well needs to be removed and the facility area reclaimed. The corrective action date is set for when final reclamation was required to be completed. Corrective action needs to be performed immediately to obtain compliance.**
