**General Comment:**

On 07/22/2021, Reclamation Specialist Trujillo and Reclamation Supervisor Arthur conducted a final reclamation and stormwater inspection at Caerus Piceance LLC's 20F Pad Location in Garfield County, Colorado.

It was observed that additional reclamation and weed management activities are required on the Location.

Refer to the "Reclamation" and "Good Housekeeping" sections of this inspection report for additional details.

Refer to the photo-documentation attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

**Location**Overall Good: ☐

Emergency Contact Number:

Comment: Corrective Action: Date: **Good Housekeeping:**

Type	WEEDS		
Comment:	Poa bulbous (bulbous bluegrass) was observed established throughout the Location. This is an introduced and aggressive invading species that will require ongoing monitoring and management for removal in accordance with Rule 606.		
Corrective Action:		Date:	
Type	WEEDS		
Comment:	It was observed in this inspection that weed management activities on the Location appear to have been recently performed, however, viable noxious weeds were observed remaining and maturing on the Location; additional management activities required.		
Corrective Action:	Comply with Rule 1004.e and conduct additional weed management.	Date:	08/02/2021

**Pits:** ☐ NO SURFACE INDICATION OF PIT

**COGCC Comments**

Comment	User	Date
<b>RECLAMATION COMMENTS</b>  <span style="color: blue;">It was observed in this inspection that the overall reclamation status of the Location is "in process". However, it was observed that there are areas of the Location that have not been reclaimed, or require additional reclamation/revegetation activities to ensure Location progresses towards 1004 standards:</span>  <span style="color: blue;">-Approximately 200 ft of the former access road leading into the southern end of the Location has not been reclaimed. See photo 10.</span>  <span style="color: blue;">-Gravel/road base and culvert observed remaining at the Location entrance on the west end of the Location. See photo 9.</span>  <span style="color: blue;">-There are areas on the north/northeast end of the Location where desirable plant germination/establishment was not evident, or not progressing towards 1004 Standards; additional revegetation activities required. See photos 3, 5.</span>	trujilloam	07/26/2021
