Operator  
Comment:

This well was plugged in January 2019. All COAs were properly completed. This site passed final inspection Sept. 14, 2020 (read inspection doc #688308435). Under "General Comments", the inspector wrote "Final Reclamation Inspection". The lease is still active and is operated by Impetro Resources, LLC (Ops.#10690).

In addition, please note that Petron was a contract operator. Petron's contract with any potential interest owner has been terminated. Petron has no legal right to represent any potential interest owners in this lease.

No action will be taken by the former operator (Puckett-Warren Oil) and Petron requests this inspection be cleared and the final status reflect a passed final inspection.
