COLO. OIL & GAS CONSV. COMM.

Mr. D. V. Rogers, Director  
Colorado Oil and Gas Conservation Commission  
State Service Building  
Denver, Colorado

Dear Doug:

I would very much appreciate your help with a couple of wells on which we have written bonds and are attempting to get those bonds cancelled and off our books. I have tried to obtain information from the principal, but have not received much cooperation.

1. Fundamental Oil Company - Colorado Ramey Croissant No. 1. Sec. 13, 9N, 53W. Well plugged and abandoned in 1965. Apparently there is one or more pieces of information that you need on this well before you can permit the release of the bond. Would you please advise us what is still required.

2. Fundamental Oil Company - Colorado 1-A. This well was to be drilled by Hayes-Winslow and then to be operated by Fundamental if productive. The well was to be located in the SENE, Sec. 3, T 1S, R. 54W. It was plugged and abandoned January 7, 1963. Again, there must be some missing information before the bond can be terminated. Please let me know what you need.

Yours truly,

W. W. Butler
