General Comment:

COGCC Inspection Report Summary

On Tuesday 8/17/2021 at approximately 1000, I, Inspector Scott Ramsey, conducted a follow up inspection at TEP GGU 6-29, at Location # 335202 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area and 411 water protection. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad, there is no evidence of a tracking pad at time of inspection.

C/A's (provide proof of tracking controls, signs of lack of compaction and unused equipment) from previous inspection document # 700702209 has been completed from new operator (TERRA).

During this inspection the following compliance issues were observed:

1. ECD is now unused equipment (not hooked up)

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report.
