**General Comment:**

Environmental inspection of area of spill 480367 and site investigation and remediation project 18372. PDC operated a tank battery at the area of the spill. Production equipment has now been removed.

Contractors and consultants at site during inspection.  
No fencing around open excavation noted but acceptable as long as excavation site has personnel present

## Environmental

**Spill/Remediation:**

Comment: rule 913.b(5)B.i requires that Operators will fence or cover open excavations to prevent access when sites are no attended. Site was attended during inspection. Fencing materials and fence post did not appear to be present on site at time of inspection.

Corrective Action: Ensure that if/when site is not attended that adequate fencing is in place surrounding the open excavation seen in photos
