COGCC INSPECTION SUMMARY:

FIR Document Number: 690201847  
Inspection Date: 07/15/2021 FIR Submit Date: 07/20/2021 FIR Status: \_\_\_\_\_

Inspected Operator Information:

Company Name: PETRON DEVELOPMENT COMPANY Company Number: 69760  
Address: 1899 W LITTLETON BLVD  
City: LITTLETON State: CO Zip: 80120

LOCATION - Location ID: 303284

Location Name: GOEGLEIN-63N47W Number: 25SESW County: YUMA  
Qtrqtr: SESW Sec: 25 Twp: 3N Range: 47W Meridian: 6  
Latitude: 40.193940 Longitude: -102.579030

FACILITY - API Number: 05-125-00 Facility ID: 252812

Facility Name: GOEGLEIN Number: 1-25  
Qtrqtr: SESW Sec: 25 Twp: 3N Range: 47W Meridian: 6  
Latitude: 40.193940 Longitude: -102.579030

CORRECTIVE ACTIONS:

1  CA# 153947

Corrective Action: Comply with 1004 Rules. Date: 01/28/2020

Response: CA COMPLETED Date of Completion: 08/05/2021

Operator Comment: This well was plugged in February 2019. All COAs were properly completed. The proper Form 27s were submitted and approved.  
Inspection on Doc# 688000291 Dated 3/29/2019:  
Per COGCC inspector "Pit appears to have been revegetated between 2013 and 2016 based on review of Google

Earth aerial photographs and the 2009 and 2016 field inspections”.

Form 27Doc #402012147 Dated 04/17/2019:

“Based on the information presented, it appears that no further action is necessary at this time and the COGCC approves the closure request.”

COGCC decided to reinspect the site and failed final reclamation based on the following:

1. Class B noxious weeds found on site. – These weeds are not at our former location nor were they present at the time of plugging and reclamation. In addition, this weed is in an area (many, many miles in size) that call for the County to contain (not eradicate). This particular weed is very common in the County... hence containment.
2. Per inspector” There is an area 30ft.x30ft. with no vegetation establishment at the former well site.” – Please note the following:
  - a. This is CRP ground (virtually no maintenance by surface owner).
  - b. The site has been reseeded twice. Given we are in a severe drought period, seedlings are having a difficult time taking hold.
  - c. Per Rule 1004(c),2 (in effect as of date of reclamation) “On non-crop land, reclamation has been performed as per Rules 1003. and 1004., and the total cover of live perennial vegetation, excluding noxious weeds, provides sufficient soils erosion control...”. This has been completed.
  - d. Please note that there has been either wildlife activity or livestock activity (or both) around the photographed site.
  - e. Petron was a contract operator. Petron’s contract with any potential interest owners has been terminated. Petron has no legal right to represent any potential interest owners in this expired lease.
  - f. This lease has expired. No operator would have authority to reenter the location (a.k.a, trespassing).

No action will be taken by the former operator and Petron requests this inspection be cleared and the final status reflect a passed final inspection.

COGCC Decision: **Not Approved**

COGCC Representative:	PETRON DEVELOPMENT COMPANY IS THE OPERATOR OF RECORD AND REMAINS RESPONSIBLE TO COMPLETE THE CORRECTIVE ACTION BY THE DUE DATE.
-----------------------	---

OPERATOR COMMENT AND SUBMITTAL

Comment: This well was plugged in February 2019. All COAs were properly completed. The proper Form 27s were submitted and approved.

Inspection on Doc# 688000291 Dated 3/29/2019:

Per COGCC inspector “Pit appears to have been revegetated between 2013 and 2016 based on review of Google Earth aerial photographs and the 2009 and 2016 field inspections”.

Form 27Doc #402012147 Dated 04/17/2019:

“Based on the information presented, it appears that no further action is necessary at this time and the COGCC approves the closure request.”

COGCC decided to reinspect the site and failed final reclamation based on the following:

1. Class B noxious weeds found on site. – These weeds are not at our former location nor were they present at the time of plugging and reclamation. In addition, this weed is in an area (many, many miles in size) that call for the County to contain (not eradicate). This particular weed is very common in the County... hence containment.
2. Per inspector” There is an area 30ft.x30ft. with no vegetation establishment at the former well site.” – Please note the following:
  - a. This is CRP ground (virtually no maintenance by surface owner).
  - b. The site has been reseeded twice. Given we are in a severe drought period, seedlings are having a difficult time taking hold.
  - c. Per Rule 1004(c),2 (in effect as of date of reclamation) “On non-crop land, reclamation has been performed as per Rules 1003. and 1004., and the total cover of live perennial vegetation, excluding noxious weeds, provides sufficient soils erosion control...”. This has been completed.
  - d. Please note that there has been either wildlife activity or livestock activity (or both) around the photographed site.
  - e. Petron was a contract operator. Petron’s contract with any potential interest owners has been terminated. Petron has no legal right to represent any potential interest owners in this expired lease.
  - f. This lease has expired. No operator would have authority to reenter the location (a.k.a, trespassing).

No action will be taken by the former operator and Petron requests this inspection be cleared and the final status reflect a passed final inspection.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
