Corrective Action: Install combustor as stated in sundry notice from 2019.

Date: 06/10/2021

Response: CA COMPLETED

Date of Completion: 06/10/2021

Operator Comment: Bayless rcv'd approval to install combustor, then calcs were reevaluated so Bayless submitted APEN cxtation to CDPHE (production low enough to just vent gas). Original permit engineer had been working w/Bayless consultant for a year - now no longer there. New permit engineer Lauraleigh Lakocy CDPHE evaluating permitting requirements w/Bayless consultant at this time. Bayless continuing to work with Ms. Lakooocy but even during evaluation, Bayless still not venting enough to exceed thresholds. Awaiting CDPHE evaluation of data.
