Operator Comment: A separator does not meet the definition of a "tank or container" per COGCC definitions in Section 100 where separators are specifically excluded from the definition of a "tank." Therefore, the labeling requirements at Rule 605.h do not apply. Further, the glycol used in our separators is not a DOT-regulated hazardous material; therefore, Rule 605.h.(3) does not apply.

COGCC Decision: Approved pending re-inspection
