General Comment:

COGCC Inspection Report Summary

On Wednesday 9/15/2021 at approximately 1000, I, Inspector Scott Ramsey, conducted a routine inspection at Caerus H36X, at Location # 334926 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area. Operator (Caerus) has provided documentation of their Best Management Practices for Sediment Tracking Controls.

During this inspection the following compliance issues were observed:

1. A vertical unit separator includes 1 glycol storage tank, approximately 48" x 72" x 191" = 68.03 BBLS each, storage vessel contains no labeling to specify capacity or chemical hazard information.
2. Lack of bull plugs

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
