**Subject: Form 4 Sundry Notice – Final Reclamation  
McElvain Energy Inc. (Operator: 55575)  
CHICKADEE 4-5, Location ID: 338256  
SWNW S04-T3S-R46W  
Yuma County, Colorado**

Dear Mr. Shefte,

WSP USA (WSP) was contracted by McElvain Energy Inc. to complete final reclamation inspections at plugged and abandoned (P&A) well sites located in Yuma County, Colorado. The reclamation inspections were conducted in accordance with Colorado Oil and Gas Conservation Commission (COGCC) Rule 1004.

The former CHICKADEE 4-5 well (API: 05-125-11142) was permitted but never drilled. On July 15, 2021, WSP conducted a final reclamation inspection for the former CHICKADEE 4-5 well pad (Location ID: 338256). The reclaimed location is situated on non-irrigated rangeland and has been returned to that land use. A modified step-point vegetation survey was conducted on the reclaimed well pad and on adjacent reference areas for comparison. Foliar and basal cover, along with non-vegetated, and noxious weed occurrences were documented. No noxious weeds were observed and undesirable species, if present, were excluded from the vegetative coverage calculation. Survey results indicate the reclaimed area has a foliar vegetative cover that is 80% of the undisturbed reference area.

WSP personnel located the P&A wellhead location using a handheld Trimble (R1) Global Positioning System (GPS) unit and latitude and longitude coordinates obtained from the COGCC online database. A general site location map is included as Figure 1; and the Site Map displaying the location of the reclaimed site on a 2020 aerial imagery is included as Figure 2. Photographs of the P&A location were taken facing each cardinal direction from the P&A wellhead location. The photographic log is included as Attachment 1.

Based on the successful reclamation of the CHICKADEE 4-5 site, a Form 4 Sundry Notice requesting final reclamation status has been prepared for the submittal to the COGCC. This letter will be included as an attachment to the electronic Form 4 submittal.

If you have any questions or need additional information, please do not hesitate to contact us.

Kind regards,

Tanna Lyon,  
Lead Consultant, Environmental Scientist

Ryan Dial,  
Senior Consultant, Environmental Scientist
