Raindance wells between CR 13 and 7th St in Windsor, CO near the Poudre river.

Detailed description of the issue(s) * (?)

Please provide as much detail as possible. It is important to narrow down the issue(s).

The Raindance wells between CR 13 and 7th Street next to the Poudre River in Windsor, CO are about a mile from my home but causing loud pulsing noises and tone changes disrupting sleep. I contacted Great Western and they said their noise is within compliance. Ironically the two nights after me contacting them the noise lessened.... Now the noise is back up in volume in early morning. I tried to voice concerns before the wells went up, they said they would be great neighbors, then when I contacted them they said they were in compliance and would do what they could. They said I could go to court to oppose the wells but I didn't have childcare to do so and was afraid as I was kicked off social media when I voiced concern. I dropped my complaint in hopes they would be good neighbors but that isn't the case.

I also recently found out they had an unreported spill and given their closeness to my home and the flood plain I'm very bothered by that for safety reasons.

I beg of the state to do whatever is necessary to protect residents over the businesses that are encroaching on homes that were there first.
