General Comment:

On 10/6/2021 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Remove and properly dispose of Russian thistle debris (concentrated in former facilities areas and access road). Manage weeds to prevent debris. Corrective action date 11/8/2021.

-Assess revegetation after Russian thistle debris removal to determine whether 2019/2020 revegetation efforts are progressing and whether additional action is needed to complete restoration. Corrective action date: 11/8/2021.

Location is approaching final reclamation standards once revegetation is established within the former facilities area and access road.

See below, and attached photos for additional detail.

Overall Interim Reclamation

Final Reclamation/ Abandoned Location:

Date Final Reclamation Started: _____ Date Final Reclamation Completed: _____

Final Land Use: _____

Reminder: _____

Comment: Corrective action from 2019 to conduct re-seeding within the facilities area appears to be addressed. Dense weeds remain in that area that need to be managed to reduce competition with desirable vegetation.

Well plugged _____ Pit mouse/rat holes, cellars backfilled _____

Debris removed _____ No disturbance /Location never built _____

Access Roads Regraded _____ Contoured _____ Culverts removed _____

Gravel removed _____

Location and associated production facilities reclaimed _____ Locations, facilities, roads, recontoured _____

Compaction alleviation _____ Dust and erosion control _____

Non cropland: Revegetated 80% _____ Cropland: perennial forage _____

Weeds present _____ Subsidence _____

1004.d. FINAL VEGETATION TRANSECT

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment: Dense Russian thistle debris observed in former facilities area and along former access road.

Corrective Action:

Date **11/08/2021**

-Remove and properly dispose of Russian thistle debris (concentrated facilities areas).
 Manage weeds to prevent debris. Corrective action date 11/8/2021.
 -Assess revegetation after Russian thistle debris removal to determine whether 2019/2020
 revegetation efforts are progressing and whether additional action is needed to complete
 restoration. Corrective action date: 11/8/2021.

Comment: Stormwater and erosion controls were assessed during this inspection and active erosion was not observed. These controls are assessed for whether they are functioning at the time of the inspection only. A determination as to whether or not they are adequate for the location over the duration of production is not made. Continue monitoring and managing stormwater and erosion controls to ensure compliance with stormwater regulations.

Corrective Action:
