General Comment:

On 10/27/2021 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Stormwater and erosion controls need to be installed to stabilize erosion within the project area by 11/20/2021.

See below, and attached photos for additional detail.

Comment:		Erosional rilling is occurring within the southern well pad fill slopes where little desirable vegetation is present.				Date: 11/20/2021
Corrective Action:		Stormwater and erosion controls need to be installed to stabilize erosion within the project area. Stormwater and erosion controls need to be selected, sized, installed, and maintained according to good engineering practices, and remain in place until location is stabilized with desirable perennial vegetation.				
Pits: <input checked="" type="checkbox"/> NO SURFACE INDICATION OF PIT
