General Comment:

On 11/11/2021 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Stormwater (ie: BMPs) and erosion controls (ie: erosion control blankets, hydromulch, etc.) need to be installed within the project area by 12/10/2021. Controls need to be selected, sized, installed, and maintained according to good engineering practices.

See below, and attached photos for additional detail.

<p>Comment: Stormwater erosion is occurring at the well pad entrance where concentrated stormwater flows off of the well pad and down the access road, and offsite. Bare soils on the well pad cut-slope are eroding and need to be stabilized.</p>						Date: 12/10/2021
<p>Corrective Action: -Stormwater (ie: BMPs) and erosion controls (ie: erosion control blankets, hydromulch, etc.) need to be installed within the project area by 12/10/2021. Controls need to be selected, sized, installed, and maintained according to good engineering practices. Stormwater and erosion controls need to be maintained in place until location is stabilized with desirable perennial vegetation.</p>						
<p>Pits: <input checked="" type="checkbox"/> NO SURFACE INDICATION OF PIT</p>
