

Today's Date:	11/10/2021					
Well Name:	BONDAD 33-10 106	Location:	Sec: 01	Twn: 033N	Rng: 010W	UL: A
API Number:	05.067.08319	Footage:	990' FNL & 1075' FEL			
Operator:	Hilcorp Energy Company	Area/Run/MSO:	01	0101	Bob Percell	
Meter #:	06633054		Pipeline:	HEC		
INC Number:	693903830	Agency:	COGCC	Inspector:	Catherine Roy	
Type of INC:	Written	Photos Required:	Yes	Due Date:	11/20/2021	
Issue of Concern:	<p>On 11/3/2021 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:</p> <ul style="list-style-type: none"> <li>-Remove and properly dispose of weed debris by 11/20/2021.</li> <li>-Control Canada thistles by 11/20/2021. Corrective action date is reduced so operator can address corrective actions before winter conditions arrive.</li> <li>-Corrective action from April 2021 inspection to install erosion controls/mulch is addressed. See below, and attached photos for additional detail.</li> </ul> <p>Dense Russian thistle debris, up to 4ft tall, blowing and drying within the project area. With concentrations around fence lines, wellhead, and facilities. Remove and properly dispose of weed debris. Manage weeds (for example mowing, manual removal) to prevent debris by 11/20/2021.</p> <p>Portions of the project area are recently seeded. A germination transect was conducted and identified less than 1 desirable seedling per quadrat. Operator needs to monitor revegetation within the project area to ensure that revegetation is successful. Approximately 250 Canada thistles observed within the northern project area. Control Canada thistles. Operator needs to communicate with weed sprayer (if used) to carefully administer herbicide in order to avoid damage to young and germinating seedlings by 11/20/2021.</p> <p>Corrective action to install erosion controls (mulch) to bare soils is addressed.</p>
