General Comment:**COGCC Inspection Report Summary**

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

On Monday 11/22/2021 at approximately 1000, I, Inspector Scott Ramsey, conducted a routine inspection at 31 Operating RBCWG 31-42, at Location # 316335 in Rio Blanco county Colorado.

While there, I observed no production operations and labeling on location/meter house have a different operator (KT Resources).

Emergency phone # has also been changed, I contacted the emergency contact without fail (KT Resources). Wells are shut in. All meters have been not calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area. There is no evidence of tracking pad at time of inspection.

During this inspection the following compliance issues were observed:

1. Location shows some signs of lack of stabilization/compaction.
2. Locations weeds have turned into debris throughout location.
3. Lack of tank battery signage.
4. One chemical tank is lacking a label and is unused equipment.
5. No evidence of tracking control BMP's.
6. Location signs are incorrect.

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report.
